EAGLE TECH

The industry's first AI-powered locator uses an on-board neural network to automatically scan and select the optimal frequencies from the full spectrum. This full spectrum scanning covers 8,000+ frequencies—that's more than 8x the frequencies of Falcon.

OVER-THE-AIR UPDATES

Your locator only gets better with time: connect to Wi-Fi to download major upgrades and features like Steering Past the Locator, which effectively doubles the target steering range.

LOCATION TRACKING

Protect your investment. Mark as Stolen to lock your locator and receive GPS pings every hour, or use Silent Mode to secretly track it without alerting the thief.
